

1. The examiner should show the marked scripts to the Section Head/Department Head and Head of School before referring the same to an external assessor.
2. An assessor is expected to check all marginal scripts [in terms of pass/fail, grades] as well as some of the better and poor answers at random.
3. Assessment must ensure that marking is done according to the scheme, both consistently and accurately.
4. Extreme cases of deviation or mismatch between exam and CW must be thoroughly checked.
5. Assessor's general comments should aim at the standard and techniques of marking.
